

This kitchen uses digital HACCP and food waste tracking

SmartKitchen Console

Log tasks, monitor temperatures and acknowledge alarms. Ensure that food safety monitoring is working correctly.

Automated temperature monitoring

Keep the device switched on and in place.

Handheld temperature probe & mobile app

- Use with the KitchenHelper app on your phone
- Keep the phone charged
- Switch off the probe after use

Blast chilling temperature monitoring

Switch off the device after use.

Automated dishwasher temperature monitoring

Fixed installation. Keep the device switched on and in place.

Mobile Gateway

Keep the device connected to power and switched on. It transfers measurement data to the SmartKitchen service.

WasteScale with touchscreen

- Always keep the tablet and scale plugged in.
- Do not place or roll anything over the cables.
- Keep the scale dry.
